Mission Statement: The Los Angeles Hospitals and Institutions Committee has been formed as a spiritual interest group that allows SLAA members, who feel so inclined, to practice the "Twelfth Step" and "Fifth Tradition" by carrying the message of recovery to fellow sufferers of our disease. Our goal is to bring awareness about sex and love addiction to members who are unable to attend outside meetings due to attendance in a residential treatment center or incarceration. Our hopes and prayers are that we can make a difference in their lives.
